

Onar Alili

SOFTWARE ENGINEER

EXPERIENCE

SOFTWARE DEVELOPER | ATATECHNOLOGY LLC

April 2012 – August 2016

Maintenance of existing SMPP protocol. Developed an office application (add-in). Started and actively involved in developing a large HRM system project and successfully released.

SOFTWARE DEVELOPER | BETHCLIP start-up

March 2013 – August 2015

Joined the team in the early stage. I have been part of many technological changes based on new experiences. Gained valuable skills in clipboard and cloud related technologies, developed Windows desktop application and solved challengeable tasks.

SOFTWARE DEVELOPER | AZERIMED LLC

March 2010 - March 2012

Worked closely with the senior software developer. Reduced, solved and automated the manual task to a minute which previously was taking an hour to complete. Spent nights in the server room in order to recover workflow. Wrote SQL queries to the reporting system.
